Post Course Activities

What to expect after completing the course...

We are glad to have you join us in the Certificate in Organic Haircare Formulation Course.

Maya Organics School remains mostly committed to ensuring students develop new skincare skills through collaborative learning that can consolidate on what has been previously learned. We also ensure there is growth through mentorship, networking, refresher programs, and other engaging activities.

Moving on

Below are some of our post-course activities:

- **Certification**-After the course, students who have completed the course learnings, practical assignments, and group work will get a certificate from Maya Organics Limited.
- **Groups**- Certificate holders of any course done on the platforms are migrated to Telegram to experience the latest insights in the recipe and formula development.
- Network with fellow participants and learn about each other's entrepreneurial drive; collaborate on raw material sourcing throughout the world, and, most importantly, get continuous support from the school authorities.

- Refresher Programs – Maya Organic School continuously creates refresher skincare courses held both offline and online to help its graduates be abreast of the latest innovations within the industry while learning the latest tactics to running a successful skincare business.
- New Tasks for Growth – We understand that growth within the sector requires the utmost commitment and consistent, deliberate approach to learning new things and taking on new challenges. In this bid, we continue to challenge our past participants by giving them new tasks to accomplish and assignments to keep them on top of their game.

- Mentorship – We believe in hand-holding-hands to drive growth. Through mentorship, we help our students learn from people who have proven track records and are willing to contribute to skincare entrepreneurs' ecosystem for growth and prosperity.

We look forward to your growth
